Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 12, 13, 17-19 and 28-31 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 487 412 to Pozzi et al.

Pozzi shows a pump having a body 2, 16; piston 49; fixing ring 4; reservoir 15; sealing gasket 42; air intake passage 12; filtration element 5; and vent hole 12. The filtration element is above the top edge of the pump body (top edge is at 44, so the filter is above it) and between the body and fixing ring as seen in Figures 1-3.

Allowable Subject Matter

3. Claims 2-11, 14-16, 20-27 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 7/22/2005 have been fully considered but they are not persuasive. Applicant contends that Pozzi et al. does not show the filter above the top edge of the pump. When comparing Figure 2 of Pozzi et al. and Figure 6 of the instant application, it is clear that there is a vertical portion on both of the pump structures that sits above the filter. Also, as the horizontal portion and vertical portion

are connected and are clearly both at the top of the pump, a reasonable interpretation of the top edge could clearly encompass the horizontal portion by the vent in Pozzi et al.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
